

Mykonos map

A detailed map of Mykonos island Greece. The most popular destination in Cyclades islands of Greece.

Mykonos is a fashionable destination for the jet set crowd. It is famous for its cosmopolitan character and affluent visitors. It features one of the most intense nightlife and party scenes anywhere in the country.

The island plays host to picturesque villages featuring the ideals of Cycladic architecture in its houses, streets, churches and buildings. Ports at Hora and Delos can be reached via ferry from Piraeus, Santorini, and Paros. Mykonos also has an airport with regular flights from Athens and Thessaloniki.

A visit to Mykonos means a visit to some of the most entertaining and exciting parties in the whole of Europe. Use our map of the island to wade your way through the numerous bars and clubs in the city, enjoying the loud music, the lively partygoers and the excellent food and drinks. Many bars are open 24 hours, allowing you to party all day if you so wish.

If you'd rather spend time in the water, check out our Mykonos map for the gorgeous beaches in the area. Most of them will be overcrowded with the same crowd you probably mingled with at the party the previous night but if you wish for a little solitude and quiet, you can always make the trip down to Agios Iannis or Ornos, beautiful beaches that have managed to avoid the rowdy party crowd that dominate the island.

For some cultural sightseeing, you can visit the villages and appreciate the island's trademark windmills, Little Venice, the archaeological museum and the island mascot down at the waterfront. Check out the Mykonos map for directions to these places as well as other areas that may pique your interest.

You can begin at the town square for most of your needs, from restaurants, taverns, bars, tours and more. Our map of Mykonos should provide you with a comprehensive guide to getting around the island and finding any services you need.

The Maps are currently in development so we can have a detailed quality and colorful map for every place in Greece. Please check back soon
