

## Syros map

Syros Map, explore the capital of Cyclades.

Syros is a Cycladic island comprised of the municipalities of Ermoupoli, Ano Syros, and Poseidonia. Ermoupoli, an important port town in the cluster, is the recognized capital of the Cyclades. It is a small and beautiful island, with an unspoiled landscape and quiet, traditional villages.

Visitors can arrive to Syros via the ports of Ermopouli and by way of domestic flights from Athens to the Syros Island National Airport in the same town.

Use our Syros map to find the accommodations you desire. The island is small and traveling around to admire its whole beauty is not a difficult task. Hotels, villas and rooms can be found in many areas, from the populated city streets of the capital to small, out-of-the-way villages. You can find the most accessible lodging to your places of interest from our map of the island.

The town of Ermoupoli is built on a natural amphitheatric landscape and is awash with bright colors, neoclassical architecture, statues, and old mansions. It houses numerous churches, museums and a municipal library that showcases many rare editions. Find these many landmarks, as well as numerous others with the help of our Syros map.

The town is also the center of nightlife in the island with many clubs, bars and a bustling casino. Popular tourist settlements like Finikas and Galissas also feature a good amount of destinations for partygoers.

Beaches vary from popular family destinations like Vari and Galissas to small, picturesque bays such as Azolimnos and Armeos. There are many untouched, secluded bays in the nooks of its coastline that you can find with help from our detailed map of the Syros island.

Syros is a small place with a lot of beauty to offer. Use our map to help you traverse the island, uncovering hidden treasures for you to enjoy.

The Maps are curenly in development so we can have a detailed quality and colorfull map for every place in Greece. Please check back soon.
